

Quietdrive, Brit Pop

Anything goes on in your trip
Did you happen to plan on selling out
All your fake and original riffs
Did you happen to think
That they're true
And it's all
That I have
And I feel
Like I'm busting
My ass

Chorus
Is there anybody?
[True that it's gone]
Can't someone stop me?
[It's taking too long]
It's running through my body
[Finding a sound]
And we're sitting on it
[Just get off the ground]
Can you feel it, honey
[Coming around]
Yeah, I've
Been there before

How did I start off with this gig
Did I think I would make some money, yeah
Getting away with all this shit
Some people might even think
That it's me
On the drums
On the bass
Filling in
My guitar
In your face

Chorus

Is there anybody?
[Taking my time]
Can't someone stop me?
[Reading the signs]
It's running through my body
[Driving to go]
And we're sitting on it
[With all that we know]
Can you feel it, honey
[We're coming around]
Yeah, I've
Been there before

And didn't you say it'd make you happy?
Well are you happier right now?
Why do we sing to make you happy?
Well are you happier right now?
Cause didn't you say?
Didn't you say?
Didn't you say?
Didn't you say?
Didn't you say?
It'd make you happy?

Chorus
