

Quietdrive, Hollywood

you lied again
maybe this time you'll feel better
we'll try again
we fight again
baby i could make you feel better
believe me

sell it to me
hollywood how i love you
would you sell it to me
if i could i would kiss you
believe me

i just call your name and i wanted to be attached to it
i just spelled your name and said i wanna get through to you

but this is how we live our lives
little holes inside of lies
but i wanna get down and start to get through to you

hollywood do you love me?
