

# R. Kelly, A Soldier's Heart

All hope was gone  
Hard to hang on  
Hard to be strong  
Was blind, could not see  
Nothing but walls in front of me and inside no peace

And the mountains seemed impossible to climb until...

[Chorus]

You stood on the front lines  
You led the way, out of the darkness  
We didn't go astray  
You were ready to die for our sake  
And that takes a soldier's heart

Oceans so deep  
Uphill so steep  
But still we believe  
And when the road was too far to travel  
Heros you came and carried us there

And the mountains seemed impossible to climb until...

[Chorus]

And so our flag was still there  
All because you decided to care

[Chorus x2]

You stood on the front lines  
You led the way, out of the darkness  
You could have let us go astray  
You were ready to die for our sake  
And that takes a soldier's heart

And that takes a soldier's heart
