

R. Kelly, Come To Daddy

Oooooooooooh (I know what you're going through)
Come to me (I can see it in your eyes)
Oh baby (c'mon)
Come to daddy (you know I ain't got no problem with this)
Ooooooh (just say the word, I come and get you)
Come to me, yeah
(whatever you want me to do, I'll do it for you)

Well it's obvious to me that he don't love you
Baby can't you see I'm that player for you
Baby talk to me help me understand
How can you go on puttin' up with this man
Going out your way to make him happy
don't appreciate all that you give
Time to take a stand no more second chance
If you feel this way than baby take my hand

Chorus Come to daddy let me
Please your body tonight
(since he) Since won't do it right
Come to daddy let me (let me)
Please your body tonight
(since he) Since he won't do it right

It seems like everything you do for him just stop right
Same got damn excuse
Got a head ake tonight
How can you ignore
The slammin' of a door
Open up your eyes it's not the same no more
Girl you need a life with someone who is gonna love you
Treat you like god let you free and
guide you
Time to say ok
About to make a change
Don't mean no player hate
But baby come my way

Chorus

All I wanna do is get next to you
Baby I can understand what you're going through
It don't have to be this way if you don't want it to
Baby call him up and tell him that I'm leaving you'

Chorus 2x
