

# R5, One Last Dance

Teardrops in your hazel eyes  
I can't believe I made you cry  
It feels so long  
Since we've went wrong  
But you're still on my mind  
Never want to break your heart  
Sometimes things just fall apart  
So here's one night  
To make it right  
Before we say goodbye

So wait up wait up  
Give me one more chance  
To make up make up  
I just need one last dance

Freshman year  
I saw your face  
Now it's graduation day  
Said we'd be friends  
Until the end  
Can we start again

So wait up wait up  
Give me one more chance  
To make up make up  
I just need one last dance

na na na na oh whoa x2

I heard you're heading east  
So let's just make our peace  
So when you think of me  
You'll smile  
And I'll smile

So wait up wait up  
Give me one more chance  
To make up make up  
I just need one last dance  
So wait up wait up  
Give me one more chance  
Just one song  
Than I'll move on  
Give me one last dance  
I just need one last dance  
With you

oh whoa
