

R5, One Last Dance

Teardrops in your hazel eyes
I can't believe I made you cry
It feels so long
Since we've went wrong
But you're still on my mind
Never want to break your heart
Sometimes things just fall apart
So here's one night
To make it right
Before we say goodbye

So wait up wait up
Give me one more chance
To make up make up
I just need one last dance

Freshman year
I saw your face
Now it's graduation day
Said we'd be friends
Until the end
Can we start again

So wait up wait up
Give me one more chance
To make up make up
I just need one last dance

na na na na oh whoa x2

I heard you're heading east
So let's just make our peace
So when you think of me
You'll smile
And I'll smile

So wait up wait up
Give me one more chance
To make up make up
I just need one last dance
So wait up wait up
Give me one more chance
Just one song
Than I'll move on
Give me one last dance
I just need one last dance
With you

oh whoa
