

# Ra, Violator

A war against time, destined to lose, I'll just sit and watch TV  
A magical force, hypnotic drool, I'll take in all that I can see  
I'm seeing chains... now hold me down, the recline of modern man  
Neatly displayed and bundled lies, an hour glass and I'm the sand

Chorus:

Generator, decimator ahhh  
Universal, devastator ahhh

A cyber involved diversity, so straighten up and go online  
Sexual drive intensity, the darkest pit that you can find

Im holding this key to be erased, put your life into a disk  
Strainful powers, social disgrace, wages war with little risk

Generator, decimator ahhh  
Universal, devastator ahhh  
Substitution, evolution ahhh  
Electronic, absolution ahhh

Oh...my head is always lost and always changing mind  
Whats wrong just feels so right  
I think I'm going blind.....

Generator, decimator ahhh  
Universal, devastator ahhh  
Substitution, evolution ahhh  
Electronic, absolution ahhh
