Racey, Boy Oh Boy

The first time we touched,
I liked it so much
The first time we smiled,
my heart went wild

And it was, boy oh boy
One night with you, and its
Boy oh boy
What I could do with you
It was too much
Well oh boy the first time we touched

The first time we danced
It was romance
I walked you home

And we were alone again

Boy oh boy
One night with you, and its
Boy oh boy
What I could do with you
It was romance
When oh boy the first time we danced

You came closer and closer
You put your head on my shoulder
And when the night it was over
I walked you home
And we were alone again
