

# Rachael Cantu, Genius And A Wizard

I'm taken my time so my gun will shine  
when I walk right up to your door  
but you won't see it shine from the floor

they said this is the law and it's not far behind  
I've got your picture on me and not much time  
but my goal is to shoot you blind

I'm a genius and a wizard  
but I ain't got nothing on you honey  
cause you're somehow fooling all the lovers  
into believing it's about the money

and even with a death around  
I can still hear the sound of you  
dragging my name all around town

and yeah I was kind, and yeah I was good  
when I was running wild in your neighborhood  
but I don't expect sympathy  
when they lock me up and throw the key

cause you said I have enemies all across this country  
and bought bought bought it  
yeah I bought it

and they should just let me be  
cause I've got two out there gunning for me  
I said there so quietly  
out in okland city
