

# Rachael Cantu, Run All Night

follow me down to the parlor  
lets have another drink  
and lift those heavy eyelids my dear  
you don't need that much sleep

and you know it's alright  
when you look me in the eye

so stay with me 'til the morning my friend  
lets have another round  
then we'll have to run right out of here  
to somewhere we won't be found

and you know it's alright  
when you look me in the eye

and we'll be just fine  
run all night  
with you by my side  
run all night  
run all night  
run all night  
run all night  
run all night  
run all night
