

# Rachael Starr, To Forever

I see you and you see me  
There's only one thing this could be  
I think you know just what I mean  
When I'm with you I feel so free  
And I love you  
And I hope you love me too  
And I need you  
And I hope you need me too  
Babe, I just hope that you know  
To never let me go  
Cause when I comes to forever  
We should be together  
Never let me go  
When we meet up the whole world stops  
The music's loud, our temperature drops  
It seems like they're all dancing to our beat  
Look around, I know you'll see  
And I love you  
And I hope you love me too  
And I need you  
And I hope you need me too  
Babe, I just want to let you know  
To never let me go  
Cause when I comes to forever  
We should be together  
Never let me go  
And I love you  
And I hope you love me too  
And I need you  
And I hope you need me too  
Babe, I just want to let you know  
To never let me go  
Cause when I comes to forever  
We should be together  
Babe, I just want to let you know  
To never let me go  
Cause when I comes to forever  
We should be together
