

Rachel Alejandro, I Still Remember

You...you have got me going crazy
My heart is screaming your name, baby
What once since you've been gone
I'm trying my best to be strong, ohh...

Cause I, I can't believe your love has left me
I missed the times when you used to hold me
And I feel so alone
Oh baby won't you please come home

And I still remember the way we kiss
And I still recall the way we love
And I can't stop wishing
That you could be here with me tonight

Now you got another girl
Now don't you
Another girl to kiss and hug you
It's so unfair that she is getting
All the love I had before

And I still remember the way we kiss
And I still recall the way we love
And I can't stop wishing
That you could be here with me tonight

And I still remember the way we kiss
And I still recall the way we love
And I can't stop wishing
That you could be here with me tonight

And I still remember the way we kiss
And I still recall the way we love
And I can't stop wishing
That you could be here with me tonight
