

# Rachel Farris, It's All You

It's all you, you want it, you can have it  
It's all you, take your flight and get it  
It's all you, live it up, enjoy it while you can

Run while you can, give them a hand  
Take a minute to look out your door  
Play in the sand, lay out and tan  
If you're hungry, go back for more  
Live a little, cry a little, laugh and cry some more  
These are the days you will remember so take the floor

It's all you, you want it, you can have it  
It's all you, take your flight and get it  
It's all you, live it up, enjoy it while you can

Get a big screen, act like a teen  
Have cookies and milk for dinner  
Make a big scene, yell and then scream  
Get a mirror that makes you look thinner  
Take a road trip, let your hair flip  
Feel the wind blow through your fingers  
Leave a big tip, and double dip  
Have a moment, let it linger  
Live a little, cry a little, laugh and cry some more  
These are the days you will remember so take the floor

It's all you, you want it, you can have it  
It's all you, take your flight and get it  
It's all you, live it up, enjoy it while you can

Freedom to go, freedom to stay  
Freedom to give, to take it away  
Freedom to speak, freedom to observe  
Freedom to cross and to return, to return

It's all you, you want it, you can have it  
It's all you, take your flight, take your flight  
It's all you, live it up, enjoy it while you can, while you can, while you can(x2)
