Chorus

I never knew I could feel so home free
You make me smile and you just plain throw me wild
How could I dream you would be so for me?
Way into me and you never bore me
So honey sweet that the bees come swarming wild

I think of you and shake my head
When morning comes I dance in bed

(Chorus)

It's a little soon I do agree
But I think I wanna join your family tree
It's all so wild, so wild to me

(Chorus)

And I think about life without someone
To share it all with and just have fun
And it never really quite ocured to me that I'd find you

(Chorus)

Found you, Found you, I Found You
