

Rachel Fuller, I Can Fly

I check all the rooms
To see if you're home
And I close all the doors
'Cause if I'm alone

I can fly
And nobody knows
This secret is mine when I fly
My happiness shows
All of the time

You wouldn't believe
The wonder of me
Would you see
How light is my heart
How wide and how free

When I fly
From heaven to here
In the blink of an eye
And I can fly
Through space and through time
And everything's fine in my sky

Invisible wings
Impossible high when I fly
And nobody knows
This secret is mine when I fly
My happiness shows
All of the ???

???

Where loneliness breeds
This angel will fall without faith
How can there be brains
But until then

I will fly
And nobody knows
This secret is mine when I fly
My happiness shows
All of the time
