

# Rachel Stevens, Solid

You're solid, yeah  
Like a rush that I don't wanna stop

Saw the signs in your eyes  
What was up wasn't right  
And none of us was innocent  
Baby, still we played our games  
Didn't win  
Left the mess we were in  
On uneven ground  
Lost what we found

I had to put away my pride  
To find a way that I could love you more  
I couldn't keep away from you  
Then you walk back in my life  
And all at once we were just like before  
No one does what you can do

You're solid, yeah  
Like a rush that I don't wanna stop  
Boy, your love goes on and on  
You're solid, yeah  
Just when I thought that our thrill was gone  
You were solid than a rock

Like a cool summer breeze  
You're the fan for the heat  
I feel lying next to you natur-ally  
There's a switch in my heart  
Only you can turn it on  
You're the flame that lights late at night  
Deep inside me

For so long I tried to fight  
The way I felt the way you made me fall  
But I couldn't keep away from you  
But then you walk back in my life  
And all at once we were just like before  
'Cos no one knows what you can do

You're solid, yeah  
Like a rush that I don't wanna stop  
Boy, your love goes on and on  
You're solid, yeah  
Just when I thought that our thrill was gone  
You were solid than a rock

I surrender, when you do the things you do (Do the things you do)  
Together, I can't get enough of you (Get enough of you)

You're the missing piece  
The other half I need  
To make me complete

You're solid, yeah  
Like a rush that I don't wanna stop  
I don't wanna stop, no no  
You're solid, yeah  
Just when I thought that our thrill was gone  
You're solid, you're solid

You're solid, yeah  
Like a rush that I don't wanna stop

Boy, your love goes on and on  
You're solid, yeah  
Just when I thought that our thrill was gone  
You were solid than a rock

You're solid, yeah  
Like a rush that I don't wanna stop  
Boy, your love goes on and on  
You're solid, yeah  
Just when I thought that our thrill was gone  
You were solid than a rock
