

Rachel Wedeward, U Belong To Me

Chorus: Nothing else matters to me
You've made me smile
I only thought it would be awhile
Nothing else matters to me
U belong to me

Bridge: When you call
my knees fall to the ground
I can hardly speak
When your around me
everything else I can ignore
Cause nothing else matters to me anymore
this I can say
U belong to me

Chorus

1st Verse: Everything became different
after we became more than friends
nothing else was the same
after you came along
something I've waited for
someone to belong to

2nd Verse: You've made a change
it can never be the same
you loved me for who I am
now I can say
you toke my breath away
something I've waited for
For someone to love me
