

Rackets And Drapes, Scary-Go-Round

Welcome one, welcome all, to my show
Step right up, loose your mind and your soul

If you like the things that will scare you, come and take a ride
If you want a scream of a time, take your place in line

Scary, scary

Let me in your mind and I'll bring you things that bump in the night
Come inside, you are in for a fright
Then you'll see that Halloween is every night

If you like the things that will scare you, come and take a ride
If you want a scream of a time, take your place in line

Mr. Scary is my name
Scaring people is my game

All aboard the terror train, take a seat
Don't look down at the things that grab your feet

If you like the things that will scare you, come and take a ride
If you want a scream of a time, take your place in line

Boys and girls, gather round, take my hand
I'm your host, with the ghost, the boogie man

If you like the things that will scare you, come and take a ride
If you want a scream of a time, take your place in line

Mr. Scary is my name
Scaring people is my game
