

Racoon, My Town

We got a supermarket and a church
For anyone whos got the urge
Theres a nightclub and a school
Faith, a devil and a god
But more important, there's a bar
Weve got neighbours with new cars
Brand new cars
Here in my town, my little town
My little town, my town, this is my town
This is my town, my little town
My little town, my town, this is my town
So the city wasnt what you thought itd be
Every night you woke up
In lost and found, you see
I saw you every night
And everybody is always in a hurry
Yeah they run, run, run, run
Oh man, thats just not me
I know you disagree
But I'll stay here in
My town, my little town
My little town, my town, this is my town
This is my town, my little town
My little town, my town, this is my town
But the city is always warm and pleasing
No stuck up folks, brand new diseases
Everywhere around
Get my kicks more than a lot
The more I get, the more I lose my appetite
And that's not right
Ill stay in
My town, my little town
My little town, my town, this is my town
This is my town, my little town
My little town, my town, this is my town
We got a supermarket and a church
For anyone whos got the urge
Theres a nightclub and a school out there
Faith, a devil and a god
But more important, there's a bar
Weve got neighbours with new cars
Not that us folks would drive real far
