

Rad Kick, Eternity

You see me as someone who cares about
all the things in life that are so great
I know, you don't, if it's getting too late.
Now you say I'm too cussed but I know you.
While you take your last breath
we've gotta talk again, before you hit on death
We'll fade and we pray, but we know it ain't easy cause we can't
We can't fight - fight for eternity

we can't fight - time don't wait
we can't fight - fight for eternity
black is the end we can't escape
Rise above all your senses see the sky
is immortal what ever we'll do, whatever it would look like to you.
Talk to me the truth is sad but you can't change your fate by believing in a different way
it's fantasy
