

Radical Noise, Make A Wish

Who cares? My secrets, regret, mislead
You're the victim of your ownself; it's your mistake
I'll fight, to get my life, take it back
Work hard, save money, get married, buy your own grave

Make a wish; it's for your bliss
Enter the world of pink dreams, here are the keys

Enforced, classified, qualified, a robot mind
Die for your, pray for your, pay for your state, it's payback time
Can't feel, my heartbeats, like steel, I'm cold
Hate me, kick me, bomb me, feed me, are you that bold?

Make a wish; it's for your bliss
Enter the world of pink dreams, here are the keys

Won't make a wish, we've got the real keys
