

Radio Architecture, Be Somebody

Search for yourself
And for your heart
You've got time on your hands
Good time to start
Now, what do you want
What do you need
It's all in your hands
Still not free

CHORUS

You've got to be somebody
and I don't mean things
To have and hold
It's the one inside
that makes you whole
Cause I've seen that eye
And I've felt that heart
And I've heard that sound
And it's better
Cry for yourself
Drown in your tears
Hide from the truth
Die in your fears
Look to the sky
Know what you find
Don't turn away
It's all in your mind

CHORUS

You've got to be somebody
There are things I've learned
And things I know
But I heed my heart
And I heed the soul
'Cause we loose our way
In a world of gold
But we find ourselves
As we unfold
