## Radio Head, Up On The Ladder

I'm stuck in the tardis trapped in hyperspace one minute snake charming the next in a motorcade

all the right moves and earn the right percent watch me dance I'm a puppet you can almost see the strings

give me an answer give me a sign I've been climbing up this ladder I've been wasting my time

so long, so long so long, so long

up on the ladder no time to escape up on the ladder away for fucking sake

up on the ladder try to call out your name up on the ladder you're all the fucking same

oh, you let the people down you let the people down you let the people down
