Radio Iodine, All In My Head

Was it all in my head, the ugly things, you said to me
Now it's all in my hands, do I want to be what you want me to be
Tell me what would you do if I snapped you in two
If I drove you into the ground
Tell me what would you say if I just walked away
Like this is how it was meant to go down
Was it all in my head, the things you ...
You can lay me out
You can nail me down
You can find me waiting
You can lift me up
You can knock me down
You can find me hating there
You can twist &amp; scream
You can be obscene
Then you'll find me laughing
You can make me sweat
You can surely get just what I'm after there
Was it all in my mind, just how unkind, you seemed to be
Now it all falls away, and I'm left blind, like you need me to be
Tell me what would you do if I snapped you in two
If I drove you into the ground
Tell me what would you say if I blew you away
If I left without a sound
Was it all in my head, the things you ...
