

Radio Iodine, Go Ahead

Go ahead ... say it again ... you didn't mean to hurt me
Go ahead ... say it again ... you're so very sorry
I'd like to snap your head off your shoulders
Pinch your brain til it smolders
Etch my pain deep into your skin
You're very sorry, you didn't mean it, Oh
Go ahead say it again, go ahead say it again
Did I make you feel better ... Maybe for a while
Did I make you feel normal ... Well you know I'm a liar
Did I make you feel better ... Did I steal your fire
Did I make you feel normal ... Well you know you'll be fine
Go ahead ... say it again ... about how you need me
Go ahead ... say it again ... about how you love me
I'm some kind of diamond on your finger
I'd like to snap your head off your shoulders
Pinch your brain til it smolders
Etch my pain deep into your skin
You're very sorry
You didn't mean it
Go ahead say it again ... go ahead say it again
