

# Radio Iodine, Never Meant To

I never meant to do you harm, I was wrong.  
Everything I should have done  
Every note I should have sung  
Rest in little baskets in a ring about my head  
Everything I did was wrong, everything I said was wrong  
I say I don't mind the failure but I'm lying  
Everything I see is red, everything is bloody dead  
and I don't have to tell you that I'm dying  
I never meant to lie, never meant to harm  
Well, once or twice, I meant to  
I never wanted this, never meant to hit  
Well, once or twice, I meant to  
Every way I've ever failed  
Every hope that I've impaled  
Rest in little baskets in a ring around my head  
Every word I could have spoken  
Every promise I have broken  
Rot in little baskets in a ring around my head  
Singing fast ... I'm guilty  
Sinking fast ... crucify me  
Sinking fast ... it's what you want  
Sinking ... everything is dead
