## Radiorama, Chance To Desire

Following melodies Sailing abound the seas Trying to find a land

My ship gets to the shore I walk into your door Can't you understand

All I want is love All I want is love I can't get enough I can't get enough

All I want is love All I want is love I can't get enough I can't get enough

So right is wrong to stand Stay while I can feel your hand I wished a dream would last

Searching for lover nights I find it through disguise Sometimes I go too fast

All I want is love

Ah... all I want is love I can't get enough A h... I can't get enough...

All I want is love Ah... all I want is love I can't get enough Ah... I can't get enough...

## REFRAIN:

Come on, come on, come on Give a chance to desire Come on, come on, come on Give a chance to desire Come on, come on, come on Give a chance to desire Come on, come on, come on Give a chance to desire

You are the one I could reach for the sun But you let me go higher

I'll maybe believe when I Find you won't leave Give a chance to desire
