

Radish, Apparition Of Purity

She lives in Ether.
flies to me at night time
makes everything better,
she's got everything together,
she's mine.

She stares in holy trance
and she really likes to fly
gives me angelical glance,
then we start to dance
purple sky.

She is the angel that one day will save me.
Apparition of purity.

She stares in holy trance,
and she really likes to fly
gives me angelical glance,
then we start to dance
the purple sky.

She is the angel that one day will save me.
Apparition of purity.
I miss her so.
I will never, ever let go.
I will never, ever let go.

Apparition of purity, purity, purity, purity,
purity, purity, purity...
