

Radish, Falling And Leaving

School's not working today.
Failing in every way.
My girlfriend's not here with me,
the principal just sent me to the office today,
and now I'm gonna run away.
I'll run and hide, but that never works.
And I can't decide what is worse: failing or leaving?

Failing or leaving.
Leaving...
Failing or leaving?
Failing or leaving.
Leaving, leaving, leaving.
Failing and leaving.

School's not working today.
My math teacher is gay.
And in the oven a turkey pot pie,
and now I will say goodbye to my house today.
Oh man I'm going to run away.
I'll run and hide, but that never works.
And I can't decide what is worse: failing or leaving?

Failing or leaving.
Leaving.
Failing and leaving.
Failing and leaving.
Leaving, leaving, leaving.
Failing and leaving.

I'll run and hide, but that never works.
And I can't decide what is worse: failing or leaving?
Failing or leaving.
Leaving.
Failing and leaving.
Failing and leaving,.
Leaving, leaving.
I'm leaving.
Failing and leaving.
Leaving right now.
