

# Radney Foster, Another Way To Go

Now every father's child's taught to do like their told  
Not ever son or daughter is gonna fit the mold  
If you feel like your life callin's been a slave to the mud  
Down in every desert there's a burnin bush  
When the word starts shovin' give it back a push

There's another way to go  
Another way to try  
Another way to dream about it  
Everybody tell you no  
Don't ever let'em break you down  
Look another way to go  
Go

You can paint it any color  
Any color that you want  
Throw a dart at the map  
Baby fly swim, or walk  
You can cut it up and toss all the pieces in the air  
They land where they land  
Do what you do  
You don't need a reason  
Forget the excuse

There's another way to go  
Another way to try  
Another way to dream about it  
Everybody tell you no  
Don't ever let'em break you down  
Look another way to go

Down in every desert there's a burnin bush  
When the word starts shovin' man give it back a push  
Give it back a push

There's another way to go  
Another way to try  
Another way to dream about it  
Everybody tell you no  
Don't ever let'em break you down  
Look another way to go  
Go  
Another way  
Another way to go  
Way to go  
Go
