

# Radney Foster, Willin' To Walk

Willin' to Walk

I'm willin', To walk the floor  
Cry, beg and crawl down on my knees  
But if you can't see I need your love  
And not your sympathy, Then I'm willin' to walk away and set you free

Lately I've been just a little too far down  
On that list of priorities you carry around  
I don't need no lip service, Those kisses just won't do  
I need every little piece of your heart, And every bit of you

I'm willin', To walk the floor  
Cry, beg and crawl down on my knees  
But if you can't see I need your love  
And not your sympathy, Then I'm willin' to walk away and set you free

Lately I'm not sure whats come between us  
But darlin' why let foolish pride defeat us  
If you give me an inch, I'll walk that mile for you  
We can heal up all this pain before we're through

I'm willin', To walk the floor  
Cry, beg and crawl down on my knees  
But if you can't see I need your love  
And not your sympathy, Then I'm willin' to walk away and set you free
