

Rae Morris, Under The Shadows

I don't know why, why you decided
You said I was fine, said I was your freedom

Run from the past into the near
Nothing to fear,
Run from the dark into the clear
Nothing to fear

That's where the love lies,
Under the shadows
That's where the birds fly,
Under the shadows

We're afraid of nothing,
No one can we hear us
That's where the love lies,
Under the shadows

I can see why,
Why won't you say
I know it's hard,
So hard to please me
Why does it feel like it's a dream?
Caught in between
Somewhere I know,
Somewhere I've been
Caught in between!

That's where the love lies,
Under the shadows
That's where the birds fly,
Under the shadows
We're afraid of nothing,
No one can we hear us
That's where the love lies,
Under the shadows

you have to live a life
Feel like I forgotten why
I feel alive!
Caught between the consequence,
Caught it up and given in
I feel alive!
/2X

That's where the love lies,
Under the shadows
That's where the birds fly,
Under the shadows
'Cause I'm afraid of nothing,
No one can we hear us
That's where the love lies,
Under the shadows
