

Rafał Glimasiński , More Beautiful

I have the same things
when I wake up everyday.
I'm thinking about you babe
coz you stayed in my head
I wanna be with you like you wanna be with me
I know I love you girl

Sometimes we do mistakes but it's not good reason
to stop believe in us I don't wanna make it done
I wanna be with you like You wanna be with me
Please babe don't let it go

World could be more beautiful If you were with me girl
I want to keep your arm girl
If you need it baby
World could be more beautiful if you were with me girl
I would be not alone

I wish see you again I have never get enough
Since I've seen you girl you know I need it all
I wanna be with you like you wanna be with me
Time to believe in love
I keep you in my head you spin my world around
When you'll start believe in love you will start believe in us
I wanna be with you like you wanna be with me
Time to believe love

World could be more beautiful If you were with me girl
I want to keep your arm girl
If you need it baby
World could be more beautiful if you were with me girl
I would be not alone

You've always been my lady
I've always been about you crazy
I can take you everywhere girl
I know many different places
I wanna tell you one time
We can go to the new world babe
Just tell me baby where you wanna go
Where you wanna go

World could be more beautiful If you were with me girl
I want to keep your arm girl
If you need it baby
World could be more beautiful if you were with me girl
I would be not alone

World could be more beautiful If you were with me girl
I want to keep your arm girl
If you need it baby
World could be more beautiful if you were with me girl
I would be not alone
