

Raghav, Bad, Bad, Bad

From the moment I saw her she had to be mine
theres just somethin about her so awesomely right
shes not decked out in Prada or drippin in ice
shes got natural beauty a centurous sight

So baby dont walk away
give me just once chance to step up and win your love
so baby just talk to me
give me just one chance to step up and win your love
because

I've searched high and low
and everywhere I go
I've never felt so surely
so bad bad bad
and girl you see it too
my everything's for you
just tell me what to do it's so bad bad bad

Theres no words to explain
and no way to define
it's a special connection girl
your heart with mine
You've been sent from above
yeah you're one of a kind
i wanna b in you so
girl I wanna stay in your mind

So baby dont walk away
give me just once chance to step up and win your love
so baby just talk to me
give me just one chance to step up and win your love
because
