Raging Speedhorn, Redweed

Your destruction
You decide
Your misadventure
Spit at my lies
You don't have to fall down
You don't want to fall
You don't have to cry now
You don't want to cry

You're just a fuckin' lowlife Your life's a fuckin' lie You live in your mind Screaming inside Screaming is fucking blind

Your destruction You decide Your misadventures Spit at my lies

You don't want to cry now -You don't try to be You don't want to cry -You're no fuckin' good You don't want to see me -Not fuckin' again You don't want to see -We will die

REPEAT CHORUS

Your life is propoganda Burning to be like In your own world Dragging me down (x2)

Lucifer!

Your sorrow We borrow In your eyes (x7)
