Angry
Blood streaming from my eyes
But you will never hide
Decide whats going on
And fuck your hidden pride

Watch me - You will never see me
Rising - And your eyes are open
Nothing - Justice is the pain now
Fuck You - And the devil takes you

(CHORUS)

Ride with the devil - Ride with me
He'll take your life away - I'll take you away
Lost in your own world - Pay nothing for this ride
You'll never destroy our fear - Except your soul and then your mind

(REPEAT CHORUS)

You're not supposed to be like me
You decide

You sold your soul for order
So he could take it over
The string he pulls inside my head
At last I will discover
True Meaning of our lord
The devil inside my head
