

# Rahzel, Suga Sista

featuring Q Tip \*

\* Rahzel does the beatboxing Q Tip does all the vocals

To the beat (echoes)

[Q Tip talking]

Uh what takin' you back.

All the way back.

On the Rahzel track.

[Chorus:] X 2

To the beat and let your mind flow

To the beat I let my mind go

To the beat it makes your mind flow

To the beat (echoes)

[Verse 1 (Q Tip)]

I let my miiiiind flow like a river

But now Red and Dead sea constantly I MC

No conspiracy like Pope and Cons-tinople

Makin' tracks by theyself, you know I bless a little vocal

Artistry since constipated

Nowadays we're with Rahzel, we're glad we waited

Now we got you, right in the spot where we want it

And every single negative vibe is confronted

It's kinda ill when you let your music go free flowin

Buildin' on improvised grounds and still growin

People work hard, some wanna escape

But yo we gotta face the music with ease and with grace

Sometimes we look to jams for an inner inspiration

Cause the lyrics and the rhythm are the music vibrations

Makin things gel like a compound equation

Mad sounds culminatin' for one sensation

[Chorus] X 2

[Verse 2 (Q-Tip)]

Lights, camera, action, get it on

Watch the beatbox as he lets the sound form

Ain't nobody iller than my man Rahzel

So you other beat machines don't stress and get gel

A very short suggestion is you go and work harder

Give me a Break, my man is phat like Nell Carter

With a brother like the (?) on top with the willy

We the illy, he's phildeplh we the rusaphilly

It's a thunderous move like a herd of elephants

And it sounds real raw cause we in our element

Like natural, never catch these kids on sabbatical

Always up front tryin to give you what you want

You see it's very crucial that we stand and deliver

Always tryin to rise above and be a good figure

And we hopin that you diggin on the rhymes that we wrote

Better get yourself together, let's flow, come on

[Chorus] X 4

[Rahzel beatboxes til fade]
