

# Raid, Inside Out

I got a need for options  
A need for other way  
My perception change everyday  
Life is to short, for any routine  
I dont wanna follow no  
I need to lead  
You gotta drop it if it isn't right  
Put your foot on the brakes & turn up the light  
Step up, Step up if you wanna fly Join the raid,  
into the other side

We'll take you inside For a small trip,  
a free ride  
The name of the game Inside Out

Try to make yourself at home  
While we perform  
A great honor for us To bring you along  
Cauz this trip is all about the music  
It's effect on my life is drastic  
We're going straight ahead  
No point of looking back No regrets  
Underestimating us would be suicide  
Cause this Raid my friend Feels like a joy ride  
We'll take you We'll take you To the other side x3  
Cause RAID my friend Take you inside Out
