

Rainbow, No Time To Lose

The other family get no sleep
Somewhere down the love got to take and keep
Think about the future, nothing in the past
God, things never last

Come on, come on, come on
Take your love
Get down, get down, get down
Down the road

It ain't no lie
You're hurting
And you don't know why
No time to lose
We get no time to lose
No time to lose
No time to lose

Ever had the feeling something's going wrong
Hanging round a lover where you don't belong
Waiting for a reason, lookin' for a clue
But you know what you gotta do

Come on, come on, come on
Take your love
Get down, get down, get down
Down the road

It ain't no lie
You're hurting
And you don't know why
You got no time to lose
We get no time to lose
No time to lose
No time to lose

Your brothers at the bar
There girls in the car
Your sister's on the telephone
that ain't low
Your mother's going blue
Your dad is going grey
There's nothing here for you to stay

Come on, come on, come on
Take your love
Get down, get down, get down
Get down that road, get down you

It ain't no lie
You're hurting
And you don't know why
No time to lose
No time to lose
You gonna have to choose
You go and shake the blues
Oh oh you got no time to lose
You got to choose
No time to lose
