

Rainer Maria, Long Knives

well baby
did our sky fall down
and no one wants no one wants no one wants
to rebuild it now
we once drew a crowd
with my evil eye
and your crazy mouth
let's get over each other
let's get over each other

well baby
did our time run out
and no one wants no one wants no one wants
to rebuild it now
i liked it best how
we took the whole world on
back to back
long knives drawn

let's get over each other
let's get over each other
so that we can fall in love again
so that we can fall in love again

won't you ho-ho-hold me
ho-ho-hold me
make believe that
you don't loathe me

am I mistaken
when I woke up this morning
without you there I'm shaken
to the very foundation

once there was something
and now there's just a piece of atmosphere

am I mistaken
when I woke up this morning
without you there
I'm shaken to the very foundation
