

# Raised Fist, Break Free From The Start

I feel so great just on this cover  
Cause there's so many things to discover  
Let my feeling be a part of this thing  
You've just been, now it's my turn to be the king  
This feeling I have is outrageous  
Never knew that it could be dangerous  
Happy for once, please let it stay  
And if it isn't for real then let me play  
To be positive and open minded  
It isn't easy I know, no  
I can't be something I'm not  
Just have to break free from the start  
I can't be something I'm not  
Just have to break free from the start  
I'm walking on a level higher than you are  
I'm stepping on the line but I never go to far  
And if I fall directly when you're around  
I will land with pride and both feet on the ground  
This time is different from the others  
This time I'm going with my brothers  
Try the champ not today anyway  
Giving you a raised fist up your face  
Break free from the start!  
To be positive and open minded  
It isn't easy I know, no  
I can't be something I'm not  
Just have to break free from the start  
I can't be something I'm not  
Just have to break free from the start, yeah
