

Rampage, Wild For Da Night

(Rampage)

It's Atiya, Richard of Flatbush

Speak up

The word on the street is the Rampage return

Uh

(Busta)

Hah, one time, two times, three times (no doubt), four times

All my real live niggas throw your hands up

All my real live bitches throw your hands up

All my hustler mother f**kers throw your hands up

All my bigger ass niggas throw your hands up

Hah!

(Rampage)

Check it out, like this y'all

The heavyweight Brooklyn bomber that can't rest

Love success, I'm gettin money progress

Travellin for free from state to state

That's how I get my idea to create

I'm live motivate, I keep on movin, it's been FUBU

I make Def Jams like Rick Rubin

I stay on my tippy toes wreckin shows, I'm too slow

You can't peep my ill flow in this Burning Zone

Keep low like an Eskimo

Askin' people, still carry my flow, open the do'

It's the real outlaw, from Flatbush to South Shore

Givin you more and more

I just came home from tour

It's my time to burn to explore

I'm comin through the floor with Low X

I'm fully gassed to the max movin stacks, no fakin jacks

I'm the baddest man on the wax

Messin around with my Squad, you get taxed

Shittin' Ex-Lax, on hot tracks, I can't relax

Breakin' backs, with my NFL Quarterbacks

Flipmode deep we bring good things to light

Put down your gun and light

I'm in it to win it

plus I'm wildin for da night

(Busta)

Uhh, yo I'm Top Billin makin a killin
Flip a script like Terri McMillan
I can't help the way I'm feelin...
Caps is fillin', drugs is dealin'
My thug niggas keep illin'
Rampage is higher than the ceiling
Mad appealing brothers who dealin' from Brownsville and
I'm ready and willing I'm playin lock and chase
You can get my black race
Bet I, hesitates, I'm movin cash like Chase
You about to get laced fifteen across your face
You at the wrong place, you at the wrong time
You didn't use your third vision mind, you sippin wine
Your vision is blind, no you can't see the victory
You in the street it's gettin deep
You rolled up with the wrong peeps, you're the black sheep
You won't protest, drop when your little brother got shot(bang!)
It's gettin hot, now you back around the way
With the same clothes, plus your bum hoes that you chose
They gave up your whereabouts, where you hang out
Who you hang wit, now you gotta get your dome split
You wildin for da night *echoes*
