

# Rancid, Dope Sick, Girl

This song is about a girl  
who ripped me off  
she was dope sick

Dope sick girl hit and run  
she took my money  
87 dollars gone  
now she's running

How was i i to know  
That girl could take my heart  
everywhere she go  
Dope sick girl a rig and a ride she got no freedom  
Little deamon gonna hide inside she's gotta feed them

How was i i to know  
That girl could take my heart everywhere she go  
Everywhere, everywhere she go

Dope sick girl there she was at the methadone clinic  
She drank a coup called it a base coat  
She swore not to get back in it

How was i i to know  
That girl could take my heart everywhere she go

Dope sick girl gotta rig and a ride to new york city  
Gonna run away gonna watch it burn in the heart of new york city

How was i i to know  
That girl could take my heart everywhere she go

crbt2('Rancid','Dope Sick Girl')
