

Randy, Little Toulouse

You say that I'm just another boy on this world who's trying to romanticize the struggle,
But I know when I'm talking about love.
You say I'm just an immature kid who's always, always looking for trouble -- Looking for trouble
Can't avoid it if your trying to be heard.

We got so little to lose and so much to win,
Why dont we realize how fooled we have been?

Why do we sell ourselves for the price they give?
Ooh, they let us down but we forgive.
Now it's all for one and not all for all.
The greed keeps the people, the masses in control.

We got so little to lose and so much to win,
Why dont we realize how fooled we have been?
We got so little to lose and so much to win,
Why dont we realize that greed eats from within. -- From within

Oh, mama, mama life can get so lonely.
Oh, papa life can get so strange.
In times like this we have to stick together -- Forever
Brothers and sisters and workers and comrades and everybody, yeah!

We got so little to lose and so much to win,
Why dont we realize how fooled we have been?
We got so little to lose and so much to win,
Why dont we realize that greed eats from within.
