

# Randy Newman, Something Special

All dressed up, nowhere to go  
Looks so easy but it isn't you know  
Hard to find what you're dreamin' of  
But there's something special about our love  
Different people, different worlds  
You just call me, and I'll be there for you  
We belong together you know it's true  
'Cause there's something special about our love  
It's all right,  
Baby, it's ok  
We're gonna make it no matter what they say  
Sure as the stars shine in the sky above  
There is something special about our love  
People change as time goes by  
Others come between  
But I'll love you 'til the day I die  
'Cause there's something special 'bout you and me  
Something special about our love
