

Randy Newman, We're Gonna Get Married

Into a life of pain came something beautiful
Someone who loved me much as I love her
There have been trials and tribulations, and not just a few
But we made it through
And now the time's at hand

We're gonna get married
And have everything
Birdies sing
The bells will ring
Bells of every denomination ringing

We're gonna get married
Take her hand in mine
We'll be lookin' fine
In the sweet sunshine

I hear the people are talkin'
All over town
As we go walking by
Yes, they do

But I don't mind their talkin'
It's all right
'Cause I got my baby to rock me and hold me tight

We're gonna get married
We're gonna get married
We're gonna get married
Wait and see

What a grand occasion it's gonna be
All those who love us will be there *
One great big happy family, yes

We're gonna get married
We're gonna get married
We're gonna get married
You and me

We're gonna get married
We're gonna get married
We're gonna get married
Wait and see
