

# Randy Rogers Band, Down & Out

I&#039;ve been down and I&#039;ve been out  
I washed up when I thought I would drown  
I&#039;ve been down and I&#039;ve been out  
Never flown so high with both feet on the ground

I&#039;ve been walking in circles, all my life  
Chasing my own tail  
I&#039;ve got a penny in my pocket but the rest of my change  
Is down at the bottom of the well  
I&#039;ve got my mind made up but what I can&#039;t figure out  
Is how am I gonna leave my mark  
When all I&#039;ve got left is doubt

I&#039;ve been down and I&#039;ve been out  
I washed up when I thought I would drown  
I&#039;ve been down and I&#039;ve been out  
Never flown so high with both feet on the ground

I&#039;ve wasted my time all these years  
Just looking for a little bit more  
But it&#039;s hard to keep your shoes clean  
When all you&#039;ve got is dirt on the floor  
And I&#039;ve hit rock bottom with some good friends of mine  
We sat and watched the sun rise but we never saw it shine

There&#039;s a man on the radio says he&#039;s got it all worked out  
He&#039;s got a show on the road but he don&#039;t know  
What it&#039;s all about

I&#039;ve been down and I&#039;ve been out  
I washed up when I thought I would drown  
I&#039;ve been down and I&#039;ve been out  
Never flown so high with both feet on the ground
