

# Randy Travis, Heroes and Friends (Reprise)

I ain't lived forever, but I've lived enough  
I've learned to be gentle, and I've learned to be tough  
I've found only two things that last 'til the end,  
One is your heroes, the other's your friends

Chorus:

Your heroes will help you find good in yourself  
Your friends won't forsake you for somebody else  
They'll both stand beside you through thick and through thin  
That's how it goes with heroes and friends

I grew up with cowboys I watched on TV  
My friends and I sometimes pretended to be  
Years have gone by, but now and again  
My heart rides the range with my heroes and friends

Repeat chorus
