

Randy Travis, I Did My Part

I did my part I tried my best I gave my heart I took no rest time will tell
if I left my mark but I'll know full well I did my
part When I look down the road what do I see my children's children looking
right back at me when they look back at
me (and I'm) long gone away will they think kindly of me when they hear me say
I did my part I tried my best I gave my
heart I took no rest time will tell if I left my mark but I'll know full well I
did my part When I look down this hall what
do I see a little baby crawling right back to me I cannot walk for him I cannot
run but when I hold his hand and show him
how it's done I'll do my part I'll try my best I'll give my heart I'll take no
rest time will tell if I left my mark but I'll know
full well I did my part Build a family build a city build a country build a
world time will tell if I left my mark but I know full
well I did my part but I know full well I did my part
