

# Randy Travis, Let Me Try

You say love is just a lie  
And it always ends  
With sad goodbyes  
It makes you hurt  
It makes you cry  
But I say wait  
Let me try

Let me lay my hands  
Upon your heart and see if they can heal  
Those secret scars of loneliness  
That you can not conceal  
I will wipe away the saddest tear  
That falls from your blue eyes  
My love can heal the hurt you feel  
Let me try

You say you know  
How it will end  
That you'll wake up  
Alone again  
But love that's true  
Won't say goodbye  
And if you'll only  
Let me try

Let me lay my hands  
Upon your heart and pray if they can heal  
Those secret scars of loneliness  
That you can not conceal  
I will wipe away the saddest tear  
That falls from your blue eyes  
My love can heal the hurt you feel  
Let me try

Oh love can heal  
The hurt you feel  
Let me try
